Selections will be based on the creative and artistic quality of the intended work as well as the practical probability for successful completion of the proposal.

Work must be at least six feet in any direction including installation. All work must be able to withstand average weather conditions of Northeast Louisiana. Work must be securely constructed and presented. Work deemed unsafe will not be accepted. Work that becomes unsafe will be removed. It is expected that the artist will consider the public nature of the Student Sculpture Garden and provide work that is suitable for a campus community. While the final work may deviate from the original proposal any work deemed unacceptable will not be installed and the student will be responsible for returning the primary amount. Selected artist will receive 75% of funding upon acceptance, with the remainder given after installation of the artwork in the ULM Sculpture Garden.

Selected work will be displayed for a period of one year from the date of installation. All work remains in the ownership of the artist and will be returned to the artist after the display period. The University of Louisiana Monroe, VAPA, and the Art Program will not retain any commission on the sale of these works. Patrons expressing interest in the purchase of a work will be placed in direct contact with the artist. The University of Louisiana Monroe will not insure the works. Normal precaution will be taken to protect work, but the artist accepts responsibility for damage to work.
