

COLLEGE OF HEALTH & PHARMACEUTICAL SCIENCES

Faculty “Tour Our School”

Faculty in the newly created School of Health Professions had the opportunity to meet their new colleagues while touring the clinics and labs. The Counseling and Marriage and Family Therapy Clinics in Strauss Hall, the Kinesiology lab in Brown Hall, the Kitty Degree Speech and Hearing Center in Sugar Hall, the Dental Hygiene and Occupational Therapy Clinics in Caldwell Hall, and the Radiological Technology and Medical Laboratory Science labs in Kitty Degree Hall drew favorable comments from participants. Many community members were not aware of the many services that are being offered on campus to the community by students and faculty in the School of Health Professions. “This was an excellent opportunity for faculty to meet each other and learn about what other disciplines do to create potential partnerships for collaboration,” said Dr. Judy Fellows, Associate Dean for the College of Health and Pharmaceutical Sciences.
