23. THE DEPARTMENT OF OCCUPATIONAL THERAPY requests:

Presenter:	D. Eichhorn
Action:	CHANGE IN DEGREE PLAN (Catalog p. 128)

Current Text:

Applicants for admission to the professional segment of the Occupational Therapy Assistant Program (OCTA) must complete the following minimum criteria by the end of the spring semester that application is made: 1) possess a minimum, uncorrected cumulative grade point average of 2.500 on a 4.000 scale in all previous coursework attempted at higher institutions of attendance and a minimum 2.500 uncorrected grade point average in all hours toward the OTA degree; 2) completion of 27 [29] hours of required pre-professional coursework in the Occupational Therapy Assistant Program with a grade of "C" or better (see course descriptions for prerequisites). These hours must include Biology 226 and Psychology 278. NOTE: It is strongly recommended that all 30 [32] pre-professional hours be completed by the end of the spring semester of application to the professional program. However, students may apply with 27 [29] of the required credits completed with a grade of "C" or better.

Proposed Text (Changes highlighted in bold type):

Applicants for admission to the professional segment of the Occupational Therapy Assistant Program (OCTA) must complete the following minimum criteria by the end of the spring semester that application is made: 1) possess a minimum, uncorrected cumulative grade point average of 2.500 on a 4.000 scale in all previous coursework attempted at higher institutions of attendance and a minimum 2.500 uncorrected grade point average in all hours toward the OTA degree; 2) completion of 30 [32] hours of required pre-professional coursework in the Occupational Therapy Assistant Program with a grade of "C" or better (see course descriptions for prerequisites). These hours must include Biology 226 and Psychology 278. NOTE: It is strongly recommended that all 33 [35] pre-professional hours be completed by the end of the spring semester of application to the professional program. However, students may apply with 30 [32] of the required credits completed with a grade of "C" or better.

24. THE DEPARTMENT OF CLINICAL LABORATORY SCIENCE requests:

Presenter:	D. Wisenor
Action:	CATALOG CHANGE: pp. 122, 123

Proposed Text (Replacing introductory beginning with "Admission to Pre-Clinical Laboratory Science" heading, p. 122):

GENERAL INFORMATION

Clinical laboratory scientists (medical technologists) provide 70-80% of the objective data used to make clinical decisions by the clinical analyses they perform and evaluate. Clinical laboratory scientists may pursue diverse career paths including those in hospital laboratories, clinics, research, public health, reference laboratories, forensic laboratories, and educational institutions.

The Clinical Laboratory Science (CLS) curriculum consists of two segments, preclinical laboratory science (PCLS) and professional clinical laboratory science (CLSC). The PCLS segment includes 6 academic semesters, or the equivalent, in an accredited college or university. No grade below a "C" may be transferred from another college or university.

The CLSC segment consists of one calendar year (37 semester hours) of professional course work in a medical center laboratory that is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Medical center programs that are affiliated with ULM include Lake Charles Memorial Medical Center, Lake Charles, LA; Rapides Regional Medical Center, Alexandria, LA; Scott and White Hospital, Temple, TX; St. Francis Medical Center, Monroe, LA; St. Vincent's Medical Center, Jacksonville, FL; and Overton Brooks Veterans Affairs Medical Center, Shreveport, LA.

MISSION STATEMENT

The Clinical Laboratory Science Department at ULM is committed to providing northeast Louisiana and the region beyond with competent, ethical graduates who will help to meet the needs of a community and the nation, both of which have a critical shortage for these professionals with an increasing vacancy rate.

ADMISSION TO PRE-CLINICAL LABORATORY SCIENCE

Applicants for admission to the pre-professional curriculum (PCLS) must meet the general admission requirements for admission to the University. Applications are submitted to the University Admissions Office.

ADMISSION TO THE PROFESSIONAL CLINICAL LABORATORY SCIENCE PROGRAM

Applicants for admission to the professional program must complete the requirements of the PCLS curriculum with a minimum cumulative grade point average of 2.7 and no grade below a "C" in a science, math, or PCLS course. In addition, applicants must pass a psychomotor evaluation and be recommended by ULM CLS faculty.

Students who meet the criteria listed above may apply to affiliated clinical programs. Applications should be submitted to the program directors at the affiliated sites by the end of the semester prior to the final semester in PCLS. This is usually the first semester of the junior year.

Application forms for admission into the professional program may be obtained from the Office of Clinical Laboratory Science. The department head of CLS will assist students with the application process.

Acceptance into the affiliated program is determined by the selection committee of each site. These selection committees base their decisions on both academic and non-academic criteria, according to their individual policies. Since there are a limited number of available clinical positions, students are selected on a competitive basis and may not be selected even after meeting all of the requirements.

Students who are not selected for admission are counseled by CLS faculty concerning ways to improve their chances of acceptance into future classes and/or alternative career paths. Students who are selected into a professional program are advised by the CLS department head concerning registration and graduation procedures. The student must comply with all University and clinical affiliate policies. Students must maintain a grade of C or better in all clinical courses. The student is responsible for making living arrangements for the clinical education phase of the program.

After completing the professional program, the student is awarded the BS degree and may become certified as a CLS(NCA) and/or MT(ASCP) by taking a national certification examination.

Action:	CHANGE IN DEGREE PROGRAM (BS Chemistry)

Current Degree Plan and Text:

DEPARTMENT OF CHEMISTRY

Brotherton, Arant, Barnett, Buczala, Cruse, G. Findley, Fox, Junk, Watkins, Watson, Zehnder

All B.S. Chemistry majors must take six hours of a foreign language and forty-nine hours of core courses. The core must include the following thirty-five hours of chemistry courses: Chemistry 107, 108, 109, 110, 301, 230, 231, 232, 233, 240, 241, 310, 350, 431, and 407.

Chemistry majors may choose the American Chemical Society Certified Concentration or the Non-ACS-Certified Concentration.

American Chemical Society Certified

Concentration. To complete the 49-hour core, American Chemical Society Certified Degree candidates must take Chemistry 320, 321, 322, 323, 413, and 499. Additional

requirements include Mathematics 113, 131, 132, and 232; Physics 207, 208, 209, and 210. Non-ACS-Certified Concentration. To complete the 49-hour core, Non-ACS-Certified majors must take Chemistry 220, 499 and eight hours of specialty elective courses. Additional requirements for the Non-ACSCertified Degree include Mathematics 113 and 114; Physics 203, 204, 209, and 210; and 20 hours of free electives. Of the total twenty-eight hours of elective courses (8 specialty electives and 20 free electives), at least fifteen hours must be numbered 300 or above. **CHEMISTRY** Note: On any line below, if ACS-Certified Concentration and Non-ACS-Certified courses differ, the Non-ACS Certified courses are listed in brackets { }. Freshman Year Hrs. Core English Composition*6 Mathematics 113, 131 or Core Social Science (Group 1)*3 Core Natural/Physical Science (Biological Science)*......3 Core Humanities*6 FRYS 101(1) Sophomore Year Mathematics 132; 232; or {Electives}8 Physics 207, 208 or {203, 204}6 Core Fine Arts*......3 32 Junior Year Chemistry 320, 321, 322, 323 or {Specialty Electives}8 Core Humanities* 28 {31} Senior Year 31 {29}

Total hours for degree, 124.

*Students should see Arts and Sciences Core Curriculum section for requirements.

From page 156:

Required for an American Chemistry Society Certified Concentration: Chemistry 107, 108, 109, 110, 230, 231, 232, 233, 240, 241, 301, 310, 320, 321, 322, 323, 350, 407, 413, 431 and 499. Total of 49 core semester hours. Students who have satisfactorily completed these courses which meet the requirements of the Committee on Professional Training of the American Chemical Society may receive certification to the American Chemical Society with the approval of the Department.

Required for a Non-ACS-Certified Concentration: Chemistry 107, 108, 109, 110, 220, 230, 231, 232, 233, 240, 241, 301, 310, 350, 407, 431, 499 and 8 hours of specialty elective courses. Total of 49 core semester hours.

Proposed Degree Plan:

DEPARTMENT OF CHEMISTRY

Brotherton, Arant, Barnett, Buczala, Cruse, G. Findley, Fox, Junk, Watkins, Watson, Zehnder

All B.S. Chemistry majors must take six hours of a foreign language and fifty hours of core courses. The core must include the following thirty-six hours of chemistry courses: Chemistry 107, 108, 109, 110, 230, 231, 232, 233, 240, 241, 310, 350, 351, 400, 431, and 407.

Chemistry majors may choose the American Chemical Society Certified Concentration or the Non-ACS-Certified Concentration.

American Chemical Society Certified

Concentration. To complete the 50-hour core, American Chemical Society Certified Degree candidates must take Chemistry 320, 321, 322, 323, 413, and 499. Additional requirements include Mathematics 113, 131, 132, and 232; Physics 207, 208, 209, and 210.

Non-ACS-Certified Concentration. To complete the

50-hour core, Non-ACS-Certified majors must take
Chemistry 220, 499 and eight hours of elective
Courses (300 level or above). Additional requirements for the Non-ACSCertified
Degree include Mathematics 113 and 114;
Physics 203, 204, 209, and 210; and 20 hours of free
electives. Of the total twenty-eight hours of elective
courses (8 specialty electives and 20 free electives), at
least fifteen hours must be numbered 300 or above.

CHEMISTRY

Note: On any line below, if ACS-Certified Concentration and Non-ACS-Certified courses differ, the Non-ACS Certified courses are listed in brackets $\{\ \}$.

Freshman Year Hrs.

Core English Composition*6
Mathematics 113, 131 or
{Mathematics 113, 114} _{cm}
Core Social Science (Group 1)*3
Core Natural/Physical Science (Biological Science)*3
Core Humanities*6

ADDENDA:

- 1. The UCC recommends that the description of criteria for the University Capstone on p. 218 of the 2007-2008 catalog be changed to reflect current practice. Capstone courses now being developed are not interdisciplinary in nature; on the contrary, they are discipline-based.
- **2.** A reminder to include a statement of objectives and outcomes on syllabi for new course proposals will be added to the UCC website.
