24. THE KITTY DEGREE SCHOOL OF NURSING requests:

Presenter:	E. Doughty, J. Burgess
Action:	Change Degree Plan for Bachelor of Science in Nursing (RN to BSN)

Current Degree Plan:

RN TO BSN CURRICULUM PLAN

The Kitty DeGree School of Nursing provides an ONLINE opportunity for registered nurses to be admitted into the baccalaureate degree program. Graduates in nursing from NLNAC accredited and state-approved diploma and associate degree programs who have an unencumbered license to practice may be awarded forty semester credit hours based on current licensure at the time of admission. Applicants for admission to the professional program, in addition to meeting the requirements for admission to the University, must fulfill the requirements of the pre-nursing curriculum. An applicant to the RN program must possess a minimum, corrected cumulative grade point average of 2.0 in all required pre-nursing courses excluding grades earned in developmental courses. No entrance exam is required. Part-time and full-time study is available. This curriculum is a part of

the GOLD program.

Retention in the RN to BSN Program

Failure of a student to earn a “C” or better (progressive grade) in a professional nursing course will result in automatic probation from the professional nursing program. Students who desire readmission after being on probation, suspended, resigning, or withdrawing from the professional nursing program must submit an application for readmission through the Kitty DeGree School of Nursing Admissions and Academic Standards Committee. Students who have earned a non-progressive grade in a required nursing course may be readmitted to repeat that course only one time and, in addition, may be readmitted to repeat courses in only two semesters. Readmission is not automatic, and must be reconsidered on an individual basis.

Students enrolled in the professional program of the Kitty DeGree School of Nursing are responsible and accountable for their actions related to patient care. The faculty in the course involved and the Director have the right and responsibility to impose sanctions on a student whose conduct in the clinical setting is detrimental to patient welfare. Sanction can include suspension from the course with a grade of “F” and may result in permanent suspension (dismissal) from the Kitty DeGree School of Nursing.

The total number of hours required for the degree is 121. Thirty (30) hours must be earned through instruction offered by the University of Louisiana at Monroe.
