*Pecha Kucha is a Japanese word for the sound of conversation. As a presentation style, PK offers the opportunity for people to get together to see short, fast-paced presentations on various topics. Each presenter has a brief time to present a topic, using 20 slides that auto-play for 20 seconds each, so each presentation is six minutes 40 seconds long. Topics can be academic topics, research, hobbies, travel, creative projects, etc. The presentations last spring were lively and interesting, so come join us in this session and see some of ULM's creative minds at work! Refreshments will be served and there will be time after the presentations to network with your colleagues.*

**Panel Session – Flipped Classroom Project ULIB 106**

Presenters: Mara Loeb and Vanelis Rivera

*Focused on the pedagogy of active learning, the "flip the classroom" model blends learning new content with face to face and online mediums with the goal to further engage students, increase responsible learning, and application of course materials. Two professors are engaged in a flipped classroom project and will present their experiences, including using videos of mini lectures and other ways to make the most of the classroom experience. Join this session to learn why they are interested in flipping, and to discuss with them the implications for teaching and learning.*
