

How Much Time Should I Study?

To determine how many hours you need to study each week to get A's, use the following rule of thumb.

Credit Hours

Easy Class _____ X 2 = _____

Average Class _____ X 3 = _____

Difficult Class _____ X 4 = _____

Total per week _____

Remember, it is not only the quantity of time you study but the quality. The above formula is only a guideline. Try it for a week and adjust accordingly.

You should be studying 2 hours for every 1 hour you are in class.....are you studying enough???
