**Faculty Development Committee**

**End-of-Year Report**

**March 31, 2017**

The Faculty Development Committee met in November 2016 to discuss faculty development for University Week Spring 2017 as well as for offerings throughout the spring semester.

Members followed up with input from their colleagues about topics for future faculty development. Michelle Zagar offered very valuable input from the Pharmacy faculty about topics, and levels of training.

The Spring meeting will be held April 12 or 13, according to members' availability as shown on the Doodle poll sent March 30.

Digital badges were awarded for participation at all sessions this academic year. Badges were awarded to the 12 faculty members who indicated that they wished to receive badges. The committee will be asked to consider whether the badge project should be continued or terminated.

Marilyn McIntosh

Chair, Faculty Development Committee
