

## **Council for Teacher Education End of Year Report 2013-2014**

**Submitted by Dorothy Schween, Chair**

**Activities:** After a year during which the committee did not meet (2012-2013) the Council for Teacher Education met on April 29, 2014. The meeting focus was to update committee members on some of the issues that are currently affecting education and more specifically, the Teacher Education programs at ULM. Topics addressed included the transition from NCATE to CAEP as an accrediting body, challenges with the online undergraduate program, Common Core State Standards, eTEACH course offerings, and the redesign of the Educational Leadership program.

**Decisions:** The council will meet no more than twice a year depending upon the issues that arise during the year.
