Item 1 – Minutes Approved

Minutes from the 1/17/07 were approved pending a typographical adjustment.

Item 2 – Dean Smith's Report:

The search committee for the two reference positions is bringing two applicants in for interviews. One application has been submitted for the document library position.

The library is looking at a publication (reference serials) from Blackwell. It would provide 75 years of reference (general information). There are 500 titles. The price is reasonable at \$11,700.

Netlibrary has 40,000 titles which are being used. Along with Medline full text, we have Pubmed full text. A requested proposal would allow more general titles to be available.

There has been an access problem with the music database. The access has been changed and currently a way has been found that works. The problem is more likely to occur from off campus.

As of 3 PM today, sixteen departments have submitted book preferences – about half of those on campus.

There has been nothing done about handicap spaces in front of the library. Dean Smith will check with Larry Ellerman next week.

Item 3 – New Business

The next meeting is scheduled for March 21.

The meeting was adjourned at 3:50 PM.

Respectfully submitted,

Dorothy Davis
