Notes:	This proposal includes a request to transition the 4 separate MAT programs into one program with 4 concentrations: <i>Elementary Education 1-5; Elementary Education Mild/Moderate 1-5; Secondary Education 6-12; Secondary Education Mild/Moderate 6-12</i>. This will streamline our MAT offerings and coursework which allows for more flexibility, reduces the number of hours required per certification area, and prevents

	<p>low-completer programs from being eliminated. Given the current teacher shortage, options such as this are beneficial to all stakeholders. This was done with guidance from current BESE policy regarding initial certification requirements for MAT programs.</p>
