The Toxicology major can also be used to fulfill the Pharmacy admission requirements for the ULM Pharmacy School. Students pursuing admission to Pharmacy School will use the electives in the Pharmacy topic area. Doing so will allow students to complete the Pharmacy admission requirements and Toxicology, B.S.(261004) degree requirements simultaneously. Students not interested in Pharmacy School can choose nine (9) hours from any of the approved electives listed in the Academic Catalog.

If a student at any time should decide against pursuing admission to Pharmacy School or fails to be admitted, the student may choose to continue to pursue a Toxicology undergraduate degree or choose to pursue a degree other than Toxicology.

## **Admission to the Program in Toxicology**

Applicants for admission to the undergraduate program in Toxicology must meet the general admission requirements for admission to the University. Applications are to be submitted to the University Admissions Office.

## **Mission Statement**

The vision of the Health Studies major is to provide an innovative model of undergraduate education at ULM. The major is committed to researching the evolving trends in the healthcare industry and the corresponding needs of Louisiana's healthcare workforce. Our mission is to prepare graduates with a firm foundation in health science education that will support entry into mid-level managerial positions in the healthcare industry or to enter graduate education in a health-related field. Our purpose is to produce highly competent, ethical, professional health leaders who can effect change for the better in the healthcare industry. Our goal is to use the most effective teaching imaginable and establish a student-centered learning environment where undergraduates can expand their knowledge and skills.

## **General Information**

Students who seek admission to ULM must meet general admission requirements for admission to the University. Applications to ULM are submitted to the University Admissions Office - [www.ulm.edu/prospectivestudents/](http://www.ulm.edu/prospectivestudents/). Students entering the BSHS degree program with transfer credit must request a transcript review from the program to determine what coursework will be credited to the degree plan. A minimum of 31 hours of credit in the BSHS degree program must be successfully completed at ULM in order to receive the B.S. degree.

Students majoring in the Health Studies program must meet these requirements to progress toward degree completion.

- A grade of "C" or better is required for all HLST courses, core ENGL, core Math, core Natural Sciences, and AHSC 2000.
- A minimum 2.75 cumulative grade-point average in all HLST courses is required for progression to HLST Practicum II in the student's senior year.
- A grade of "D" in HLST courses is non-progressive; the course must be repeated with a minimum grade of "C" before a student can progress to the next sequential course.

Students are expected to meet additional academic requirements and follow procedures to register for HLST 4003 - Practicum II. Students who seek to register for HLST 4003 in the spring semester, must submit their intent to register form in the fall semester by the designated due date to the Practicum Coordinator. Students who seek to register for HLST 4003 in the summer and fall semesters must submit the intent to register form in the spring semester by the designated due date. The intent to register form is located on the Health Studies Program webpage with due dates listed. There is a course fee for HLST 4003 in addition to regular semester fees. Students must meet and recognize the following requirements to register for HLST 4003.

- Declared a major in BSHS.
- Completion of 90 credits in the BSHS curriculum.
- Completion of all 2000 and 3000 level HLST courses.
- Good standing with the University.
- Minimum overall GPA of 2.0.

- A minimum GPA of 2.75 with a “C” or better in all HLST courses.
- Application and approval for progression to the HLST 4003.

Students can select from a variety of classes at ULM that will serve as Health Studies electives. Potential Health Studies electives are listed on Flightpath for student convenience.

**Proposed Content:**

## **HEALTH STUDIES PROGRAM**

[www.ulm.edu/healthstudies](http://www.ulm.edu/healthstudies)

Bower, Dolecheck, Starks, Theodos

### **Bachelor of Science in Health Studies (BSHS)**

#### **Mission Statement**

The vision of the Health Studies major is to provide an innovative model of undergraduate education at ULM. The major is committed to researching the evolving trends in the healthcare industry and the corresponding needs of Louisiana’s healthcare workforce. Our mission is to prepare graduates with a firm foundation in health science education that will support entry into mid-level managerial positions in the healthcare industry or to enter graduate education in a health-related field. Our purpose is to produce highly competent, ethical, professional health leaders who can effect change for the better in the healthcare industry. Our goal is to use the most effective teaching imaginable and establish a student-centered learning environment where undergraduates can expand their knowledge and skills.

#### **General Information**

Students who seek admission to ULM must meet general admission requirements for admission to the University. Applications to ULM are submitted to the University Admissions Office - [www.ulm.edu/prospectivestudents/](http://www.ulm.edu/prospectivestudents/). Students entering the BSHS degree program with transfer credit must request a transcript review from the program to determine what coursework will be credited to the degree plan. Students must complete a minimum of 31 hours of credit in the BSHS degree program at ULM to receive the B.S. degree. Students majoring in the Health Studies program must meet these requirements to progress toward degree completion.

- A grade of “C” or better is required for all HLST courses, core ENGL, core Math, core Natural Sciences, and AHSC 2000.
- A minimum 2.75 cumulative grade-point average in all HLST courses is required for progression to HLST 4003 – Health Science Practicum in the student’s senior year.
- A grade of “D” in HLST courses is non-progressive; the course must be repeated with a minimum grade of “C” before a student can progress to the next sequential course.

## Practicum Information

The on-campus and online Bachelor of Science in Health Studies Management Marketing Track requires students to complete the Health Studies 4003 (3cr) - Health Science Practicum. Students must complete a minimum of 104 hours at a practicum site in addition to satisfying additional course requirements.

Students in the Bachelor of Science in Health Studies Pre-Professional track are encouraged to complete the practicum which can provide required observation and volunteer hours needed for application to their chosen professional program.

The Practicum course provides students with on-the-job healthcare training under an approved agency's supervision. The Practicum is designed to provide students with real-world experience in a health-related organization and is typically completed in the students' final senior semester. The Practicum allows the exploration of interests and career options while in school and helps build practical skills necessary for career success.

Students must meet additional academic requirements and follow procedures to register for HLST 4003 - Health Science Practicum. HLST 4003 is only offered during the Summer full term session. Students who seek to register for HLST 4003 must submit their Intent to Register form in the spring semester by the designated due date to the Practicum Coordinator. The Intent to Register form is located on the Health Studies Program webpage with due dates. There is a course fee associated with HLST 4003-Health Science Practicum in addition to regular semester fees.

Students majoring in the Health Studies program must meet these requirements for Practicum eligibility:

- Declared a major in BSHS.
- Completion of 90 credits in the BSHS curriculum.
- Completion of all 2000 and 3000 level HLST courses.
- Good standing with the University.
- Minimum overall GPA of 2.0.
- A minimum GPA of 2.75 with a "C" or better in all HLST courses.

Presenter:	J. Brady
Action:	<b>Change catalog content under School of Basic Pharmaceutical and Toxicological Science</b>

**Proposed Changes:**

## **School of Basic Pharmaceutical and Toxicological Sciences**

 [Print this Page](#)

### **COLLEGE OF PHARMACY- BASIC PHARMACEUTICAL AND TOXICOLOGICAL SCIENCES**

<https://www.ulm.edu/pharmacy/academicdepts/index.html> Baer, Banks, Barabutis, Briski, Chamcheu, El Sayed, Herrock, R. Hill, Jackson, Jois, Liu, Matthaiolampakis, , Shah, Sylvester

Professional students may be eligible to receive the **Bachelor of Science in Pharmaceutical Science (BSPS)** degree. The degree will be awarded to students who successfully complete all prerequisite courses and selected courses totaling 55 hours in the Doctor of Pharmacy (Pharm.D) program. The purpose of awarding this degree is to recognize the achievement of these students when they have earned credit hours in an amount comparable to that of students receiving other baccalaureate degrees and to give appropriate recognition for their academic accomplishment to that point in the educational process. Students who have received a previous bachelor's degree are not eligible for the BSPS degree.

The undergraduate Toxicology program consists of a four-year curriculum which includes a solid foundation in basic sciences, a broad background in the science of Toxicology with several highly specialized courses, and sufficient courses in other areas to provide the student with a well-rounded education. The concept of a broad background with certain specialized courses is intended to allow the graduate to fit into any of several aspects of toxicology, including industrial hazard control, environmental pollution control, product safety assessment, forensic toxicology and toxicology research. The Toxicology major can also be used to fulfill the Pharmacy admission requirements for the ULM College of Pharmacy. Students pursuing admission to Pharmacy School will use the electives in the Pharmacy topic area. Doing so will allow students to complete the Pharmacy admission requirements and Toxicology, B.S.(261004) degree requirements simultaneously. Students not interested in Pharmacy School can choose nine (9) hours from any of the approved electives listed in the Academic Catalog.

If a student at any time should decide against pursuing admission to Pharmacy School or fails to be admitted, the student may choose to continue to pursue a Toxicology undergraduate degree or choose to pursue a degree other than Toxicology.

### **Admission to the Program in Toxicology**

Applicants for admission to the undergraduate program in Toxicology must meet the general admission requirements for admission to the University. Applications are to be submitted to the University Admissions Office.

Notes:

Proposal was approved in December 2022 but was not shown in the minutes from the meeting.

Addendum:

1. Due to the volume of proposals the meeting was completed on March 8<sup>th</sup>.
2. There was an error in the prerequisites for PSYC 5022 and PSYC 5023 in the March minutes of 2019 item 103 and 104. The prerequisites should be removed from the graduate classes. This will match the entry in the graduate catalog.
